

# Naveen Kewat

AI & Software Engineer

Bhopal, India — +91 6264790369 — nkcool3956@gmail.com

LinkedIn — GitHub — Portfolio

## PROFESSIONAL SUMMARY

Results-driven AI & Software Engineer with strong expertise in Python, Node.js, and Java. Specialized in Generative AI models, Prompt Engineering, and building efficient AI workflows utilizing LangChain. Experienced in applying context engineering, RAG architectures, and MCP protocols to ensure high-quality, grounded AI outputs. Adept at navigating DevSecOps processes, and collaborating across multinational environments. Proven ability to prioritize tasks independently under workload pressure.

## CORE COMPETENCIES

- **Languages:** Python, Java, JavaScript/Node.js, TypeScript, SQL.
- **Generative AI & Tools:** Prompt Engineering, RAG, Context Engineering, LangChain, Generative AI Models (DeepSeek V3, LLMs), MCP Protocols.
- **Frameworks & Web:** React.js, Express, MongoDB, MERN Stack.
- **Methodologies:** DevSecOps, Agile Software Development, Git/Version Control, Project Management.
- **Soft Skills:** Independent Task Prioritization, Cross-region Collaboration, Advanced English Communication.

## WORK EXPERIENCE

### Congruex Asia Pacific

Aug 2024 – March 2026

*Engineer 1*

- Contribute to engineering workflows and system reliability by integrating DevSecOps processes and Agile methodologies.
- Support telecom infrastructure development tasks, prioritizing heavy workloads independently under time pressure.
- Collaborate with cross-region teams in a multinational environment, utilizing advanced English for technical communication.

### Freelance Developer

Jul 2023 – Jul 2024

*AI & Full-Stack Solutions*

- Delivered GenAI and software solutions for Spool.ai, Wisdom Window, Gambling Web, and Dynamic Depth.
- Developed scalable full-stack features using React and Node.js; managed version control via Git.
- Implemented AI use cases and automated web processes, managing project lifecycle from concept to deployment.

### Srchouts Software

Jan 2023 – Jun 2023

*React.js Intern*

- Built responsive UI components and proactively resolved application bugs using React.js.
- Gained foundational experience in team collaboration, Git version control, and project management tools.

## KEY PROJECTS

### Cosmos – Multi Chatbot Platform (React, Node.js, RAG, LLMs)

- Built a full-stack platform integrating DeepSeek V3 LLM with RAG architecture.
- Applied Context Engineering and Prompt Engineering to ground results accurately based on holy books.
- Ensured high-quality, relevant outputs by structuring efficient AI workflows via MCP protocols.

### AI Content Automation Platform (Python, Automation, APIs, LangChain, n8n)

- Designed an automated system to download, caption, and schedule reels/videos to YouTube and Instagram.
- Leveraged Python and AI workflow tools (LangChain, n8n) to break down tasks efficiently for content generation.

### Bindu AI & Language Learning Platform (Python, Java, MERN Stack)

- Developed a Python-based voice assistant capable of locally parsing and executing commands.
- Built a MERN stack quiz learning application featuring secure authentication and a dynamic leaderboard.

## EDUCATION

### Laxminarayan Institute of Technology

2020 – 2024

B.Tech in Electronics & Communication (CGPA: 8.04)
